DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment filed February 28, 2005. The applicant cancelled claim 5 and amended claim 1 to include features from previously indicated allowable subject matter.

Allowable Subject Matter

2. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior arts of the record, taken alone or in combination of other references, does not disclose, teach or fairly suggest the features of the claimed circuit, connected for operation as a FIB sensor of a smart card IC, for detecting a focused ion beam attack, comprising, among other things, an antenna for detecting an FIB attack connected to a memory cell and a capacitance connected between the memory cell and a driver circuit for isolating the driver circuit from the antenna. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1-4 are believed to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
